INTRODUCTION

This report presents data on ownership interests in commercial and noncommercial broadcast stations as of October 1, 2017.¹ The report contains: (1) an overview of the tabulations of the 2017 commercial and noncommercial broadcast ownership data presented by gender, ethnicity, and race;² (2) a comparison of certain 2017 and 2015 data for commercial broadcast stations—full power television, Class A television, low-power television (LPTV), AM radio, and FM radio;³ and (3) more detailed information in the attached tables and appendices, as well as in accompanying spreadsheets released in conjunction with this report.⁴

The Federal Communications Commission's biennial commercial and noncommercial broadcast ownership reporting forms—FCC Form 323 and Form 323-E, respectively—are designed to obtain detailed ownership information, including data on racial and ethnic minority and female broadcast ownership. Such broadcast ownership data can be compiled and aggregated and used as a source for further analysis. The Commission requires all commercial and noncommercial full power television and radio broadcast stations, as well as low power and Class A television stations, to file biennial ownership reports using the same “as of” date (October 1) for reported data during each filing cycle.⁵ A station's report must identify all of its attributable interest holders.⁶ Forms 323 and 323-E also require all attributable interest holders to obtain and provide FCC Registration Numbers from the Commission

¹ The Bureau's previous Report presented data on commercial broadcast stations as reported in the 2015 filing cycle. See Third Report on Ownership of Commercial Broadcast Stations, FCC Form 323 Ownership Data as of October 1, 2015 (MB 2017), <https://www.fcc.gov/document/form-323-ownership-report-data-october-1-2015> (Third 323 Report).

² In 2016, the Commission revised the Ownership Report for Noncommercial Broadcast Stations (Form 323-E) to align the reporting requirements for noncommercial stations more closely with the requirements for commercial stations. See *Promoting Diversification of Ownership in the Broadcasting Services et al.*, Report and Order, Second Report and Order, and Order on Reconsideration, 31 FCC Rcd 398, 420-28, paras. 43-55 (2016) (2016 323 and 323-E Order); see also *Promoting Diversification of Ownership in the Broadcasting Services et al.*, Order on Reconsideration, 32 FCC Rcd 3440 (2017) (2017 323-E Order on Reconsideration) (further revising noncommercial filing requirements). Pursuant to the 2016 323 and 323-E Order, noncommercial stations are now required to submit biennial ownership reports on the same schedule applicable to commercial stations, including the October 1 “as of” date. See 2016 323 and 323-E Order, 31 FCC Rcd at 432-33, paras. 64-67. Such filings were submitted by noncommercial licensees for the first time as part of the 2017 biennial filing cycle. See *id.* at 429, 432, paras. 58, 66; *Promoting Diversification of Ownership in the Broadcasting Services*, Order, 31 FCC Rcd 13263, 13263-64, paras. 1-2 (MB 2016) (suspending rolling filing deadlines for noncommercial stations and instead requiring all such stations to file on or before December 1, 2017).

³ Because this report contains ownership data for noncommercial broadcast stations for the first time, we have no prior data for noncommercial stations with which to provide a historical comparison, as we do for commercial stations.

⁴ The accompanying spreadsheets present ownership characteristics for each broadcast station, identified by its Facility ID number. These spreadsheets also provide the current call sign for each broadcast station.

⁵ Recognizing that there are certain limited instances where a non-profit entity holds a commercial license—and therefore parts of Form 323 may be inapplicable to the entity's structure—the Commission permits such an entity to file Form 323-E instead of Form 323. See 2016 323 and 323-E Order, 31 FCC Rcd at 423-24, para. 48 n.175. All stations that filed Form 323-E are treated as noncommercial for purposes of this report.

⁶ Attribution of an ownership interest to an individual or entity is governed by the Commission's rules and, in some instances, requires a detailed case-by-case determination. The attribution rules represent the Commission's best judgment concerning when an interest is sufficient to confer on the owner a potential degree of influence over a licensee that should be cognizable for purposes of applying the Commission's broadcast ownership rules. See the notes to 47 CFR § 73.3555.

Registration System (CORES FRNs) to facilitate the tracking and cross-referencing of reported ownership interests.⁷

This report presents a tabulation of the fifth data collection using the current version of Form 323 and, for the first time, using the current version of Form 323-E. The report reflects attributable ownership interests for commercial and noncommercial stations, as reported by licensees, as of October 1, 2017.⁸ On November 14, 2012, the Media Bureau released the first electronic analysis of commercial broadcast ownership data submitted pursuant to the revised biennial reporting requirements for 2009 and 2011.⁹ Subsequent reports contained analyses of the commercial broadcast ownership data submitted during the 2013 and 2015 filing cycles.¹⁰ The data contained in these reports are “snapshots” of the status of minority and female ownership in the broadcast industry taken every two years. The collection, tabulation, and release of this data are useful to the public and the Commission, as they provide an insight into the ownership of broadcast stations, both commercial and non-commercial, over time, that could be relevant to the Commission’s policymaking as well as used by interested parties in their advocacy efforts.

These reports provide detailed information by race, ethnicity, and gender concerning ownership of commercial, and now noncommercial, television, radio, Class A television, and LPTV stations. The Media Bureau compiled the 2017 biennial ownership filings using both algorithmic analysis and manual adjustments to improve the accuracy of the reported ownership status and trends. As with previous reports, however, this report tallies and presents the data as provided to the Commission by filers. Therefore, its results ultimately rely on the accuracy and completeness of those filings.

The 2017 filing cycle also marks the first time Form 323 and 323-E broadcast ownership data were submitted via the Commission’s Licensing and Management System (LMS).¹¹ Parties can now search and retrieve ownership reports submitted in LMS based on multiple criteria, including call sign, facility ID number, service, station location (city and state), and/or FCC Registration Number (FRN), among other things.¹² For each report listed, the LMS search results screen indicates whether that report was submitted for a licensee/permittee or for a parent entity. This improvement will help users quickly identify the filings that contain relevant station contracts and ownership structure information.¹³ In addition, the data contained in each Form 323 and 323-E ownership report are publicly available and may

⁷ In an effort to ascribe a unique identifier to each party, individuals reported on Form 323 or 323-E must provide either a CORES FRN or a Restricted Use FRN (RUFRN). See *2016 323 and 323-E Order*, 31 FCC Rcd at 410-17, paras. 25-36. More detail concerning these requirements is provided in the *2016 323 and 323-E Order*. See *id.* at 412-20, 428-29, paras. 25-42, 56-58. In certain limited circumstances, individuals (but not entities) reported on the Form 323 or Form 323-E may use a Special Use FRN (SUFRN) in lieu of a CORES FRN or RUFRN. The *2016 323 and 323-E Order* eliminated the ability of commercial filers to provide SUFRNs for reported individuals except in very limited circumstances. See *2016 323 and 323-E Order*, 31 FCC Rcd at 412-20, 428-29, paras. 25-42, 56-59; see also *2017 323-E Order on Reconsideration* at 4-9, paras. 7-14 (expanding the option for NCE filers to use SUFRNs).

⁸ The information in this report meets the Commission’s information quality guidelines. See *Implementation of Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility and Integrity of Information Pursuant to Section 515 of Public Law No. 105-554*, Information Quality Guidelines, 17 FCC Rcd 19890 (2002).

⁹ See *First 323 Report*, 27 FCC Rcd at 13815, para. 2.

¹⁰ See *Third 323 Report*, para. 1; *Second 323 Report*, 29 FCC Rcd at 7836, para. 2.

¹¹ See *2016 323 and 323-E Order*, 31 FCC Rcd at 438 n.279. Previously, reports were submitted via the Commission’s Consolidated Database System (CDBS).

¹² The specialized ownership report search is available via the LMS Search webpage, <https://enterpriseefiling.fcc.gov/dataentry/public/tv/publicSearchLanding.html>.

¹³ *Id.*

be downloaded from the Commission's website then aggregated, cross-referenced, and searched electronically by interested parties.¹⁴

Users of the information in this report should bear in mind that control of a licensee in the usual parlance of our cases and procedures indicates either *de jure* or *de facto* control by identifiable individuals or groups. Because the Bureau reports interests here that are held collectively by certain classes of individuals who may have no connection with one another beyond their shared classification by gender, ethnicity, or race, the fact that a particular class of individuals may have a majority of the voting stock or partnership interests in a licensee does not necessarily indicate control by that class of individuals. Rather, absent a single majority interest holder, control of these stations would be determined on a *de facto* basis, which requires access to facts not reported on Form 323. Accordingly, this report refers to these collective interests as "majority" interests, rather than "controlling" interests. Similarly, where no majority interest is reported, a *de facto* control analysis would be required to determine actual control.¹⁵ However, when a single individual, of whatever classification, holds a majority voting interest in a licensee, this would indicate *de jure* control by that individual and is considered a controlling interest.

This document also reports the attributable positional interests of individuals by their gender, ethnic, and racial classifications.¹⁶ Consistent with the Commission's rules, these individuals are deemed to have a role in the ownership and control of the broadcast licensee. Further, these individuals may exercise control of a licensee where no single individual holds a majority of the voting interests in that licensee and are more likely to exercise such control where no attributable voting interests are identified, but this cannot be inferred from the Form 323/323-E data alone. As with all *de facto* control determinations, the specific facts of each case would be required to determine actual control. Finally, our classification of a licensee in this report as having "No Majority Interest" does not necessarily mean that no classification of persons in this report has a majority interest in the station, only that these facts could not be determined from the reported Form 323/323-E data in the absence of additional information.

Some parties have suggested that, due to dissimilarities between the governance of commercial and noncommercial stations, the concept of "ownership" for noncommercial stations may be less obvious than in the context of commercial stations.¹⁷ Nonetheless, for both Form 323 (commercial) and Form 323-E (noncommercial) purposes, the concept of ownership relies on the attribution standards set forth in Section 73.3555 of the Commission's rules, which generally do not depend on equity interests but instead "seek to identify those interests . . . that confer . . . a degree of influence or control such that the holders have a realistic potential to affect the programming decisions of licensees or other core operating functions."¹⁸ The Commission's attribution standards apply to both commercial and noncommercial

¹⁴ The relevant data tables are available via the LMS Public Database Files webpage, <https://enterpriseefiling.fcc.gov/dataentry/public/tv/lmsDatabase.html>. While this report uses several different methodologies to analyze the Commission's broadcast ownership data, members of the public may wish to download the data and conduct different studies and analyses.

¹⁵ Because ownership of less than 5% of the outstanding voting stock of a corporation is not attributable, it is common for portions of a licensee's voting stock not to be reported on Form 323/323-E, particularly where the licensee is a public, widely held entity. In some cases, no attributable voting stock may be reported. See 47 CFR § 73.3555, Note 2a.

¹⁶ Officers and directors of broadcast licensee entities, for example, are attributable based on their positions. See *id.* Note 2g. The relevant question on Form 323/323-E identifies the following additional categories of positional interests: General Partner; Limited Partner; LC/LLC/PLLC Member/Owner/Stockholder; Attributable Creditor; and Attributable Investor. The question also provides an "Other" option for users to specify an attribution category not contained in our list. All stations reporting persons identified by any one of these categories are included in Tables 2 and 3.

¹⁷ 2016 323 and 323-E Order, 31 FCC Rcd at 422, para. 46.

¹⁸ *Id.* at 422-23, para. 47 (quoting *Review of the Commission's Regulations Governing Attribution of Broadcast and Cable/MDS Interests*, Report and Order, 14 FCC Rcd 12559, 12560, para. 1 (1999)).

stations, because the Commission has concluded that individuals and entities captured by these standards have the potential to exert influence over the licensee, regardless of whether the station at issue is commercial or noncommercial.¹⁹ Officers and directors therefore are attributable owners of the noncommercial licensees they serve, and such individuals historically have been reported as attributable interest holders on both commercial and noncommercial broadcast ownership reports.²⁰

SUMMARY OF RESULTS

*Overview of 2017 Commercial Broadcast Ownership Data by Gender, Ethnicity, and Race*²¹

The following summary uses only data from the 2017 FCC Form 323 and Form 323-E biennial reports and represents information current as of October 1, 2017 (the most current biennial information available). A more detailed comparison between the 2017 data and 2015 data for commercial broadcast stations is presented separately below.

Please note, the percentages of stations held by the various categories reported below are calculated on the basis of the number of stations filing usable data relevant for each category of ownership, not on the basis of the total number of licensed stations. Stations that did not file ownership reports, stations that filed insufficient data, as well as stations that are not included in the specific ownership category are not included in these calculations.²²

Reported Broadcast Ownership for Commercial Broadcast Stations

*Gender*²³

- **Women** collectively or individually held a majority of the voting interests²⁴ in 874 commercial broadcast stations, consisting of 73 **full power commercial television** stations (5.3%) of 1,368 stations; 19 **Class A television** stations (5.8%) of 330 stations; 76 **low power television** stations (7.4%) of 1,025 stations; 316 **commercial AM radio** stations (9.3%) of 3,407 stations; and 390 **commercial FM radio** stations (7.2%) of 5,399 stations.
- **Men** collectively or individually held a majority of the voting interests in 8,736 commercial broadcast stations, consisting of 735 **full power commercial television** stations (53.7%) of 1,368 stations; 233 **Class A television** stations (70.6%) of 330 stations; 640 **low power television** stations (62.4%) of 1,025 stations; 2,669 **commercial AM radio** stations (78.3%) of 3,407 stations; and 4,459 **commercial FM radio** stations (82.6%) of 5,399 stations.

¹⁹ *Id.* at 423-24, para. 48.

²⁰ *Id.* at 422-23, paras. 47 (“Officers and directors of NCE stations already are defined as attributable interest holders in NCE stations and they already are reported on Form 323-E.”).

²¹ The gender, ethnicity, and race categories identified in Forms 323 and 323-E follow the guidance provided by the Office of Management and Budget. *See* Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity, Notice of Decision, 62 Fed. Reg. 58,782 (Oct. 30, 1997).

²² As mentioned above, the Commission in 2016 revised these forms to simplify the filing process, increase the response rate, improve the quality of submitted ownership data, and facilitate the Commission’s analysis of that data. We believe that the transition to LMS and the submission of additional filings in that system will continue to improve the data collection.

²³ Please note, throughout this report we have attempted to identify situations where individuals in various categories (e.g., individuals of the same gender, race, or ethnicity) collectively hold a majority interest in a station licensee. In many cases, no such majority voting block exists for a station, in which case the number of stations attributed to the various categories might not total 100%. As described above, stations with no discernable majority voting block are categorized as “no majority interest.”

²⁴ Voting interests include, for example, voting stock in a corporation, voting interests in a partnership, or voting membership interests in a limited liability company.

Ethnicity

- **Hispanic/Latino** persons collectively or individually held a majority of the voting interests in 668 commercial broadcast stations, consisting of 58 **full power commercial television** stations (4.2%) of 1,368 stations; 45 **Class A television** stations (13.6%) of 330 stations; 137 **low power television** stations (13.4%) of 1,025 stations; 209 **commercial AM radio** stations (6.1%) of 3,407 stations; and 219 **commercial FM radio** stations (4.1%) of 5,399 stations.
- **Non-Hispanic/Latino** persons collectively or individually held a majority of the voting interests in 9,836 commercial broadcast stations, consisting of 850 **full power commercial television** stations (62.1%) of 1,368 stations; 228 **Class A television** stations (69.1%) of 330 stations; 719 **low power television** stations (70.1%) of 1,025 stations; 3,044 **commercial AM radio** stations (89.3%) of 3,407 stations; and 4,995 **FM commercial radio** stations (92.5%) of 5,399 stations.

Race

- **Racial minorities** collectively or individually held a majority of the voting interests in 416 commercial broadcast stations, consisting of 26 **full power commercial television** stations (1.9%) of 1,368 stations; 8 **Class A television** stations (2.4%) of 330 stations; 21 **low power television** stations (2.0%) of 1,025 stations; 202 **commercial AM radio** stations (5.9%) of 3,407 stations; and 159 **commercial FM radio** stations (2.9%) of 5,399 stations. Ownership of majority interests by **racial group** was as follows:
 - **American Indian/Alaska Natives** owned 31 commercial broadcast stations.
 - **Asians** owned 136 commercial broadcast stations.
 - **Black/African Americans** owned 239 commercial broadcast stations.
 - **Native Hawaiian/Other Pacific Islanders** owned 7 commercial broadcast stations.
 - Persons of **two or more races** owned 3 commercial broadcast stations.²⁵
- **Whites** collectively or individually held a majority of the voting interests in 10,076 commercial broadcast stations, consisting of 871 **full power commercial television** stations (63.7%) of 1,368 stations; 264 **Class A television** stations (80.0%) of 330 stations; 831 **low power television** stations (81.1%) of 1,025 stations; 3,052 **commercial AM radio** stations (89.6%) of 3,407 stations; and 5,058 **commercial FM radio** stations (93.7%) of 5,399 stations.

*Reported Broadcast Ownership for Noncommercial Stations**Gender*

- **Women** collectively or individually held a majority of the voting interests²⁶ in 401 noncommercial broadcast stations, consisting of 53 **full power television** stations (13.6%) of 391 stations;²⁷ 0 **Class A television** stations (0.0%) of 8 stations; 4 **low power television** stations (13.3%) of 30 stations; 30 **AM radio** stations (11.6%) of 258 stations; and 314 **FM radio** stations (9.1%) of 3,453 stations.

²⁵ For purposes of determining ownership interests by racial group and for consistency over the five reporting periods, this report continues to identify an individual as “two or more races” if more than one race category is selected for that individual.

²⁶ Voting interests include, for example, voting stock in a corporation, voting interests in a partnership, or voting membership interests in a limited liability company.

²⁷ Percentages of stations held are calculated on the basis of the number of stations filing usable data relevant for each category of ownership, not on the basis of the total number of licensed stations. Stations that did not file ownership reports, stations that filed insufficient data, as well as stations that are not included in the specific ownership category are not included in these calculations.

- **Men** collectively or individually held a majority of the voting interests in 2,564 noncommercial broadcast stations, consisting of 258 **full power television** stations (66.0%) of 391 stations; 7 **Class A television** stations (87.5%) of 8 stations; 20 **low power television** stations (66.7%) of 30 stations; 193 **AM radio** stations (74.8%) of 258 stations; and 2,086 **FM radio** stations (60.4%) of 3,453 stations.

Ethnicity

- **Hispanic/Latino** persons collectively or individually held a majority of the voting interests in 121 noncommercial broadcast stations, consisting of 5 **full power television** stations (1.3%) of 391 stations; 0 **Class A television** stations (0.0%) of 8 stations; 3 **low power television** stations (10.0%) of 30 stations; 17 **AM radio** stations (6.6%) of 258 stations; and 96 **FM radio** stations (2.8%) of 3,453 stations.
- **Non-Hispanic/Latino** persons collectively or individually held a majority of the voting interests in 3,100 noncommercial broadcast stations, consisting of 330 **full power television** stations (84.4%) of 391 stations; 7 **Class A television** stations (87.5%) of 8 stations; 24 **low power television** stations (80.0%) of 30 stations; 224 **AM radio** stations (86.8%) of 258 stations; and 2,515 **FM radio** stations (72.8%) of 3,453 stations.

Race

- **Racial minorities** collectively or individually held a majority of the voting interests in 109 noncommercial broadcast stations, consisting of 4 **full power television** stations (1.0%) of 391 stations; 1 **Class A television** station (12.5%) of 8 stations; 1 **low power television** station (3.3%) of 30 stations; 12 **AM radio** stations (4.7%) of 258 stations; and 91 **FM radio** stations (2.6%) of 3,453 stations. Ownership of majority interests by **racial group** was as follows:
 - **American Indian/Alaska Natives** owned 58 noncommercial broadcast stations.
 - **Asians** owned 2 noncommercial broadcast stations.
 - **Black/African Americans** owned 37 noncommercial broadcast stations.
 - **Native Hawaiian/Other Pacific Islanders** owned 1 noncommercial broadcast station.
 - Persons of **two or more races** owned 11 noncommercial broadcast stations.²⁸
 - **Whites** collectively or individually held a majority of the voting interests in 3,088 noncommercial broadcast stations, consisting of 329 **full power television** stations (84.1%) of 391 stations; 6 **Class A television** stations (75.0%) of 8 stations; 26 **low power television** stations 86.7%) of 30 stations; 227 **AM radio** stations (88.0%) of 258 stations; and 2,500 **FM radio** stations (72.4%) of 3,453 stations.

Comparison of 2017 and 2015 Commercial Broadcast Station Ownership Data for Key Categories

This section presents a summary of FCC Form 323 data for 2017 by category of ownership (majority voting ownership interest, attributable ownership interest, and type of attributable interest) as well as by gender, ethnicity, and race. Results are reported by service, including full power commercial broadcast television stations, Class A television stations, low power television stations, commercial AM radio stations, and commercial FM radio stations.²⁹ For purposes of comparison, the summary also includes information from the Commission's 2015 biennial ownership data.³⁰

²⁸ For purposes of determining ownership interests by racial group and for consistency over the five reporting periods, this report continues to identify an individual as "two or more races" if more than one race category is selected for that individual.

²⁹ As noted above, the Commission has revised Form 323-E to track more closely the reporting required by commercial broadcast stations, specifically, the collection of information about race, gender, and ethnicity of
(continued...)

The information summarized is provided in Appendix C in a series of tables presenting the sources of ownership attribution.³¹ The first set of tables in Appendix C identifies the number of stations for which an individual or a group of individuals of the same race, ethnicity, or gender holds, either individually or collectively, an attributable voting interest in the licensee that exceeds 50% (i.e., a majority ownership voting interest that includes voting stock in a corporation, voting interests in a partnership, or voting membership interests in a limited liability company). The second set of tables identifies the number of stations that have at least one person with an attributable interest in the relevant race, ethnicity, or gender category. All sources of attribution are included in this set of tables.³² The third, and final, set of tables identifies the number of stations with persons who are attributable by virtue of a positional interest; persons who hold voting interests of at least 5%, 10%, or 25%; or persons who hold a single majority voting interest. This set of tables counts instances where an individual's interest meets one of these criteria. Detailed information, including market size data, is contained in the tables in Appendix C and in the accompanying Excel spreadsheets released in conjunction with this report. Some of the information is presented in the bullets below.

A. Full Power Commercial Television

1. Full Power Commercial Television Majority Ownership Interest - Table A(1a)-A(1c)

a. Gender

- Females held a discernable majority voting interest, either individually or collectively, in 73 (5.3%) of the 1,368 full power commercial television stations in 2017 and 102 (7.4%) of the 1,385 full power commercial television stations in 2015.
- Males held a discernable majority voting interest, either individually or collectively, in 735 stations (53.7%) in 2017 and 833 stations (60.1%) in 2015.
- Males and females jointly³³ held a discernable majority voting interest in 3 (0.2%) stations in 2017 and 14 (1.0%) stations in 2015.

(Continued from previous page) _____

existing, reportable attributable interest holders. *See 2016 323 Order* at 420-28, paras. 43-55; *see also 2017 323-E Order on Reconsideration* at 4-9, paras. 7-14 (further revising noncommercial filing requirements).

³⁰ Previous versions of this report, including the report presenting data for the 2015 filing cycle, can be found at <https://www.fcc.gov/biennial-forms-323-and-323-e-broadcast-ownership-data-and-reports>. We note that a number of possible factors could account for shifts or changes in data from 2015 to 2017, including intervening station transfers or assignments; other changes in a licensee's ownership between 2015 and 2017; differences between the actual entities that filed reports in the 2015 window versus the 2017 window; diversification of ownership within a licensee or respondent that results in fewer findings of a majority control group consisting primarily of one gender, racial, or ethnic group; or transfers or assignments of licenses from entities with defined control groups to entities with no identifiable control group, among others.

³¹ In addition, Appendix A provides a glossary of terms, and Appendix B contains explanatory notes regarding the 2017 data.

³² All sources of attributable interests are included in this second set of tables, even though the categories are not specifically identified. As described above, all Form 323 and 323-E data are publicly available to researchers as well as the general public so that they may examine any aspect of ownership by women and minorities.

³³ In this context, "Joint Female/Male" means a situation in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) both separately exceed 50% (e.g., a station where a wife and husband each own 100% of the station as joint tenants). *See* Appendix A (glossary of terms) and Appendix B (containing explanatory notes regarding the 2017 data) for further information and relevant definitions.

- Stations with no majority interest by gender accounted for 557 stations (40.7%) in 2017 and 436 stations (31.5%) in 2015.

b. Ethnicity

- Hispanic/Latino persons held a discernable majority voting interest, either individually or collectively, in 58 full power commercial television stations (4.2%) in 2017 and 62 full power commercial television stations (4.5%) in 2015.
- 24 of these 58 stations were in a top-50 Designated Market Area (DMA); 7 stations were in DMA markets 51-100; and 27 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons held a discernable majority voting interest in 850 stations (62.1%) in 2017 and 891 stations (64.3%) in 2015.
- Stations with no majority interest by ethnicity accounted for 460 stations (33.6%) in 2017 and 432 stations (31.2%) in 2015.

c. Race

- Racial minorities held a discernable majority voting interest in 26 full power commercial television stations (1.9%) in 2017 and 36 full power television stations (2.6%) in 2015.
- 10 of these stations were in a top-50 DMA; 9 stations were in DMA markets 51-100; and 7 stations were outside the top 100 markets.
- American Indian or Alaska Natives held a discernable majority voting interest in 4 stations (0.3%) in 2017 and 12 stations (0.9%) in 2015.
- Asians held a discernable majority voting interest in 9 stations (0.7%) in 2017 and 10 stations (0.7%) in 2015.
- Black or African Americans held a discernable majority voting interest in 12 stations (0.9%) in 2017 and 12 stations (0.9%) in 2015.
- Native Hawaiian or Other Pacific Islanders held a discernable majority voting interest in no stations in 2017 and 1 station in 2015.
- Persons of two or more races held a discernable majority voting interest in 1 station in 2017 and 1 station in 2015.
- Whites held a discernable majority voting interest in 871 stations (63.7%) in 2017 and 1,030 stations (74.4%) in 2015.
- Stations with no majority interest by race accounted for 471 stations (34.4%) in 2017 and 319 stations (23.0%) in 2015.

2. Full Power Commercial Television Attributable Ownership Interest - Table A(2a)-A(2c)

- Females held attributable interests in 89.5% of full power commercial television stations in 2017 and 84.3% of stations in 2015.
- Males held attributable interests in 99.0% of stations in 2017 and 98.7% of stations in 2015.
- Hispanic/Latino persons held attributable interests in 46.7% of stations in 2017 and 32.6% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests in 98.5% of stations in 2017 and 97.7% of stations in 2015.
- Racial minorities' attributable interests in stations:

- Asians held attributable interests in 21.6% of stations in 2017 and 29.3% of stations in 2015.
- Black or African American held attributable interests in 28.1% of stations in 2017 and 17.8% of stations in 2015.
- Native Hawaiian or Pacific Islander held attributable interests in 0.2% of stations in 2017 and 2.3% of stations in 2015.
- American Indian or Alaska Native held attributable interests in 5.1% of stations in 2017 and 3.4% of stations in 2015.
- Two or more races held attributable interests in 4.4% of stations in 2017 and 5.4% of stations in 2015.
- Whites held attributable interests in 98.7% of stations in 2017 and 98.5% of stations in 2015.

3. Full Power Commercial Television Attributable Ownership By Type - Table A(3a)-(3c)

a. Positional Interest

- Females held attributable interests due to their positional interests in 89.5% of full power commercial television stations in 2017 and 85.6% of stations in 2015.
- Males held attributable interests due to their positional interests in 99.0% of stations in 2017 and 97.2% of stations in 2015.
- Hispanic/Latino persons held attributable interests due to their positional interests in 46.7% of stations in 2017 and 36.9% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests due to their positional interests in 98.5% of stations in 2017 and 98.9% of stations in 2015.
- Racial minorities' attributable interests due to their positional interests:
 - Asians held attributable interests due to their positional interests in 21.6% of stations in 2017 and 35.1% of stations in 2015.
 - Black or African Americans held attributable interests due to their positional interests in 28.1% of stations in 2017 and 20.3% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests due to their positional interests in 0.2% of stations in 2017 and 2.7% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests due to their positional interests in 5.1% of stations in 2017 and 3.1% of stations in 2015.
 - Individuals of two or more races held attributable interests due to their positional interests in 4.4% of stations in 2017 and 6.5% of stations in 2015.
- Whites held attributable interests due to their positional interests in 98.7% of stations in 2017 and 99.2% of stations in 2015.

b. Single Majority Voting Interest

- Females were single majority voting interest holders in 12.6% of full power commercial television stations in 2017 and 13.7% of stations in 2015.
- Males were single majority voting interest holders in 88.1% of stations in 2017 and 86.3% of stations in 2015.

- Hispanic/Latino persons were single majority voting interest holders in 11.4% of stations in 2017 and 11.9% of stations in 2015.
- Non-Hispanic/Latino persons were single majority voting interest holders in 88.6% of stations in 2017 and 88.1% of stations in 2015.
- Racial minorities were single majority voting interest holders in stations:
 - Asians were single majority voting interest holders in 1.7% of stations in 2017 and 2.3% of stations in 2015.
 - Black or African Americans were single majority voting interest holders in 2.4% of stations in 2017 and 1.8% of stations in 2015.
 - Native Hawaiian or Pacific Islanders were single majority voting interest holders in 0.0% of stations in 2017 and 0.3% of stations in 2015.
 - American Indian or Alaska Natives were single majority voting interest holders in 1.0% of stations in 2017 and 1.3% of stations in 2015.
 - Individuals of two or more races were single majority voting interest holders in 0.2% of stations in 2017 and 0.3% of stations in 2015.
- Whites were single majority voting interest holders in 94.7% of stations in 2017 and 94.2% of stations in 2015.

B. Class A Television

1. Class A Television Majority Ownership Interest - Table B(1a)-B(1c)

a. Gender

- Females held a discernable majority voting interest in 19 stations (5.8%) of the 330 Class A television stations in 2017 and 37 stations (9.3%) of the 396 Class A television stations in 2015.
- Males held a discernable majority voting interest in 233 stations (70.6%) in 2017 and 293 stations (74.0%) in 2015.
- Males and females jointly held a discernable majority voting interest in no stations (0.0%) in 2017 and 3 stations (0.8%) in 2015.
- Stations with no majority interest by gender accounted for 78 stations (23.6%) in 2017 and 63 stations (15.9%) in 2015.

b. Ethnicity

- Hispanic/Latino persons held a discernable majority voting interest in 45 Class A television stations (13.6%) in 2017 and 53 stations (13.4%) in 2015.
- 19 of these 45 stations were in a top-50 DMA; 9 stations were in DMA markets 51-100; and 17 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons held a discernable majority voting interest in 228 stations (69.1%) in 2017 and 280 stations (70.7%) in 2015.
- Stations with no majority interest by ethnicity accounted for 57 stations (17.3%) in 2017 and 63 stations (15.9%) in 2015.

c. Race

- Racial minorities held a discernable majority voting interest in 8 Class A television stations (2.4%) in 2017 and 7 stations (1.8%) in 2015.

- 7 of these 8 stations were in a top-50 DMA; 1 station was in DMA markets 51-100; and no stations were outside the top 100 markets.
- American Indian or Alaska Natives held a discernable majority voting interest in no stations in 2017 and no stations in 2015.
- Asians held a discernable majority voting interest in 5 stations (1.5%) in 2017 and 5 stations (1.3%) in 2015.
- Black or African Americans held a discernable majority voting interest in 2 stations (0.6%) in 2017 and 1 station (0.3%) in 2015.
- Native Hawaiian or Other Pacific Islanders held a discernable majority voting interest in no stations in 2017 and no stations in 2015.
- Persons of two or more races held a discernable majority voting interest in 1 station (0.3%) in 2017 and 1 station (0.3%) in 2015.
- Whites held a discernable majority voting interest in 264 stations (80.0%) in 2017 and 336 stations (84.8%) in 2015.
- Stations with no majority interest by race accounted for 58 stations (17.6%) in 2017 and 53 stations (13.4%) in 2015.

2. Class A Television Attributable Ownership Interest – Table B(2a)-B(2c)

- Females held attributable interests in 78.3% of Class A television stations in 2017 and 71.8% of stations in 2015.
- Males held attributable interests in 98.8% of stations in 2017 and 98.2% of stations in 2015.
- Hispanic/Latino persons held attributable interests in 38.2% of stations in 2017 and 30.0% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests in 95.0% of stations in 2017 and 95.6% of stations in 2015.
- Racial minorities' attributable interests in stations:
 - Asians held attributable interests in 7.1% of stations in 2017 and 13.3% of stations in 2015.
 - Black or African Americans held attributable interests in 20.2% of stations in 2017 and 13.1% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests in 0.0% of stations in 2017 and 0.0% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests in 1.2% of stations in 2017 and 0.3% of stations in 2015.
 - Individuals of two or more races held attributable interests in 1.6% of stations in 2017 and 0.5% of stations in 2015.
- Whites held attributable interests in 97.8% of stations in 2017 and 97.9% of stations in 2015.

3. Class A Television Attributable Ownership By Type - Table B(3a)-B(3c)

a. Positional Interest

- Females held attributable interests due to their positional interests in 78.3% of Class A television stations in 2017 and 73.9% of stations in 2015.

- Males held attributable interests due to their positional interests in 98.8% of stations in 2017 and 92.7% of stations in 2015.
- Hispanic/Latino persons held attributable interests due to their positional interests in 38.2% of stations in 2017 and 31.6% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests due to their positional interests in 95.0% of stations in 2017 and 94.9% of stations in 2015.
- Racial minorities' attributable interests due to their positional interests:
 - Asians held attributable interests due to their positional interests in 7.1% of stations in 2017 and 19.2% of stations in 2015.
 - Black or African Americans held attributable interests due to their positional interests in 20.2% of stations in 2017 and 11.1% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests due to their positional interests in 0.0% of stations in 2017 and 0.0% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests due to their positional interests in 1.2% of stations in 2017 and 0.4% of stations in 2015.
 - Individuals of two or more races held attributable interests due to their positional interests in 1.6% of stations in 2017 and 0.4% of stations in 2015.
- Whites held attributable interests due to their positional interests in 97.8% of stations in 2017 and 98.3% of stations in 2015.

b. Single Majority Voting Interest

- Females were single majority voting interest holders in 8.3% of Class A television stations in 2017 and 10.8% of stations in 2015.
- Males were single majority voting interest holders in 91.7% of stations in 2017 and 89.2% of stations in 2015.
- Hispanic/Latino persons were single majority voting interest holders in 26.9% of stations in 2017 and 31.3% of stations in 2015.
- Non-Hispanic/Latino persons were single majority voting interest holders in 73.1% of stations in 2017 and 68.7% of stations in 2015.
- Racial minorities were single majority voting interest holders in stations:
 - Asians were single majority voting interest holders in 3.2% of stations in 2017 and 3.0% of stations in 2015.
 - Black or African Americans were single majority voting interest holders in 1.3% of stations in 2017 and 0.6% of stations in 2015.
 - Native Hawaiian or Pacific Islanders were single majority voting interest holders in 0.0% of stations in 2017 and 0.0% of stations in 2015.
 - American Indian or Alaska Natives were single majority voting interest holders in 0.0% of stations in 2017 and 0.0% of stations in 2015.
 - Individuals of two or more races were single majority voting interest holders in 0.6% of stations in 2017 and 0.6% of stations in 2015.
- Whites were single majority voting interest holders in 94.9% of stations in 2017 and 95.8% of stations in 2015.

C. Low Power Television**1. Low Power Television Majority Ownership Interest - Table C(1a)-C(1c)****a. Gender**

- Females held a discernable majority voting interest in 76 (7.4%) of the 1,025 low power television (LPTV) stations in 2017 and 125 (11.0%) of the 1,137 low power television stations in 2015.
- Males held a discernable majority voting interest in 640 stations (62.4%) in 2017 and 837 stations (73.6%) in 2015.
- Males and females jointly held a discernable majority voting interest in 1 station (0.1%) in 2017 and 8 stations (0.7%) in 2015.
- Stations with no majority interest by gender accounted for 308 stations (30.0%) in 2017 and 167 stations (14.7%) in 2015.

b. Ethnicity

- Hispanic/Latino persons held a discernable majority voting interest in 137 LPTV stations (13.4%) in 2017 and 152 stations (13.4%) in 2015.
- 64 of these stations were in a top-50 DMA market; 15 stations were in DMA markets 51-100; and 58 stations were outside the top 100 DMAs.
- Non-Hispanic/Latino persons held a discernable majority voting interest in 719 stations (70.1%) in 2017 and 807 stations (71.0%) in 2015.
- Stations with no majority interest by ethnicity accounted for 169 stations (16.5%) in 2017 and 178 stations (15.7%) in 2015.

c. Race

- Racial minorities held a discernable majority voting interest in 21 LPTV stations (2.0%) in 2017 and 27 stations (2.4%) in 2015.
- 10 of these 21 stations were in a top-50 DMA market; 1 station was in DMA markets 51-100; and 10 stations were outside the top 100 markets.
- American Indian or Alaska Natives held a discernable majority voting interest in 3 stations (0.3%) in 2017 and 1 station (0.1%) in 2015.
- Asians held a discernable majority voting interest in 10 stations (1.0%) in 2017 and 13 stations (1.1%) in 2015.
- Black or African Americans held a discernable majority voting interest in 8 stations (0.8%) in 2017 and 8 stations (0.7%) in 2015.
- Native Hawaiian or Other Pacific Islanders held a discernable majority voting interest in no stations in 2017 and no stations in 2015.
- Persons of two or more races held a discernable majority voting interest in no stations (0.0%) in 2017 and 5 stations (0.4%) in 2015.
- Whites held a discernable majority voting interest in 831 stations (81.1%) in 2017 and 983 stations (86.5%) in 2015.
- Stations with no majority interest by race accounted for 173 stations (16.9%) in 2017 and 127 stations (11.2%) in 2015.

2. Low Power Television Attributable Ownership Interest - Table C(2a)-C(2c)

- Females held attributable interests in 61.6% of LPTV stations in 2017 and 59.2% of stations in 2015.
- Males held attributable interests in 96.2% of stations in 2017 and 95.0% of stations in 2015.
- Hispanic/Latino persons held attributable interests in 32.3% of stations in 2017 and 22.9% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests in 90.1% of stations in 2017 and 90.1% of stations in 2015.
- Racial minorities' attributable interests in stations:
 - Asians held attributable interests in 6.9% of stations in 2017 and 9.3% of stations in 2015.
 - Black or African Americans held attributable interests in 8.2% of stations in 2017 and 11.4% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests in 0.2% of stations in 2017 and 0.1% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests in 1.8% of stations in 2017 and 0.7% of stations in 2015.
 - Individuals of two or more races held attributable interests in 1.7% of stations in 2017 and 0.9% of stations in 2015.
- Whites held attributable interests in 98.0% of stations in 2017 and 97.1% of stations in 2015.

3. Low Power Television Attributable Ownership By Type - Table C(3a)-C(3c)***a. Positional Interest***

- Females held attributable interests due to their positional interests in 61.6% of LPTV stations in 2017 and 59.2% of stations in 2015.
- Males held attributable interests due to their positional interests in 96.2% of stations in 2017 and 94.5% of stations in 2015.
- Hispanic/Latino persons held attributable interests due to their positional interests in 32.3% of stations in 2017 and 26.2% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests due to their positional interests in 90.1% of stations in 2017 and 95.6% of stations in 2015.
- Racial minorities' attributable interests due to their positional interests:
 - Asians held attributable interests due to their positional interests in 6.9% of stations in 2017 and 22.5% of stations in 2015.
 - Black or African Americans held attributable interests due to their positional interests in 8.2% of stations in 2017 and 3.7% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests due to their positional interests in 0.2% of stations in 2017 and 0.0% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests due to their positional interests in 1.8% of stations in 2017 and 0.5% of stations in 2015.

- Individuals of two or more races held attributable interests due to their positional interests in 1.7% of stations in 2017 and 0.3% of stations in 2015.
- Whites held attributable interests due to their positional interests in 98.0% of stations in 2017 and 94.2% of stations in 2015.
- b. Single Majority Voting Interest**
- Females were single majority voting interest holders in 15.0% of LPTV stations in 2017 and 18.7% of stations in 2015.
- Males were single majority voting interest holders in 85.5% of stations in 2017 and 81.3% of stations in 2015.
- Hispanic/Latino persons were single majority voting interest holders in 24.7% of stations in 2017 and 28.3% of stations in 2015.
- Non-Hispanic/Latino persons were single majority voting interest holders in 75.3% of stations in 2017 and 71.7% of stations in 2015.
- Racial minorities were single majority voting interest holders in stations:
 - Asians were single majority voting interest holders in 1.9% of stations in 2017 and 2.8% of stations in 2015.
 - Black or African Americans were single majority voting interest holders in 1.1% of stations in 2017 and 1.4% of stations in 2015.
 - Native Hawaiian or Pacific Islanders were single majority voting interest holders in 0.0% of stations in 2017 and 0.0% of stations in 2015.
 - American Indian or Alaska Natives were single majority voting interest holders in 0.3% of stations in 2017 and 0.2% of stations in 2015.
 - Individuals of two or more races were single majority voting interest holders in 0.0% of stations in 2017 and 1.2% of stations in 2015.
- Whites were single majority voting interest holders in 96.8% of stations in 2017 and 94.6% of stations in 2015.

D. Commercial AM Radio

1. Commercial AM Radio Majority Ownership Interest - Table D(1a)-D(1c)

a. Gender

- Females held a discernable majority voting interest in 316 (9.3%) of 3,407 commercial AM radio stations in 2017 and 314 (8.9%) of 3,509 AM radio stations in 2015.
- Males held a discernable majority voting interest in 2,669 stations (78.3%) in 2017 and 2,549 stations (72.6%) in 2015.
- Males and females jointly held a discernable majority voting interest in 47 stations (1.4%) in 2017 and 51 stations (1.5%) in 2015.
- Stations with no majority interest by gender accounted for 375 stations (11.0%) in 2017 and 595 stations (17.0%) in 2015.

b. Ethnicity

- Hispanic/Latino persons held a discernable majority voting interest in 209 commercial AM stations (6.1%) in 2017 and 176 stations (5.0%) in 2015.

- Of these 209 stations, 159 stations were in a top 100 Arbitron metro market, 25 stations were in Arbitron metro markets 101-274, and 25 stations were outside all Arbitron metro markets.
- Non-Hispanic/Latino persons held a discernable majority voting interest in 3,044 stations (89.3%) in 2017 and 2,730 stations (77.8%) in 2015.
- Stations with no majority interest by ethnicity accounted for 154 stations (4.5%) in 2017 and 603 stations (17.2%) in 2015.

c. Race

- Racial minorities held a discernable majority voting interest in 202 commercial AM radio stations (5.9%) in 2017 and 204 stations (5.8%) in 2015.
- Of these 202 stations, 129 stations were in a top-100 Arbitron metro market; 35 stations were in Arbitron metro markets 100-274; and 38 stations were outside all Arbitron metro markets.
- American Indians or Alaska Natives held a discernable majority voting interest in 5 stations (0.1%) in 2017 and 6 stations (0.2%) in 2015.
- Asians owned 93 held a discernable majority voting interest in (2.7%) in 2017 and 104 stations (3.0%) in 2015.
- Black or African Americans owned 103 held a discernable majority voting interest in (3.0%) in 2017 and 87 stations (2.5%) in 2015.
- Native Hawaiian or Other Pacific Islanders held a discernable majority voting interest in 1 station (0.0%) in 2017 and 5 stations (0.1%) in 2015.
- Persons of two or more races held a discernable majority voting interest in no stations (0.0%) in 2017 and 2 stations (0.1%) in 2015.
- Whites held a discernable majority voting interest in 3,052 stations (89.6%) in 2017 and 2,722 stations (77.6%) in 2015.
- Stations with no majority interest by race accounted for 153 stations (4.5%) in 2017 and 583 stations (16.6%) in 2015.

2. Commercial AM Radio Attributable Ownership Interest - Table D(2a)-D(2c)

- Females held attributable interests in 64.8% of commercial AM radio stations in 2017 and 63.1% of stations in 2015.
- Males held attributable interests in 95.9% of stations in 2017 and 95.7% of stations in 2015.
- Hispanic/Latino persons held attributable interests in 13.7% of stations in 2017 and 11.6% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests in 94.7% of stations in 2017 and 94.6% of stations in 2015.
- Racial minorities' attributable interests in stations:
 - Asians held attributable interests in 15.7% of stations in 2017 and 15.5% of stations in 2015.
 - Black or African Americans held attributable interests in 6.2% of stations in 2017 and 6.9% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests in 0.2% of stations in 2017 and 0.6% of stations in 2015.

- American Indian or Alaska Natives held attributable interests in 0.5% of stations in 2017 and 0.4% of stations in 2015.
- Individuals of two or more races held attributable interests in 0.2% of stations in 2017 and 0.3% of stations in 2015.
- Whites held attributable interests in 94.7% of stations in 2017 and 94.3% of stations in 2015.

3. Commercial AM Radio Attributable Ownership By Type - Table D(3a)-D(3c)

a. Positional Interest

- Females held attributable interests due to their positional interests in 64.8% of commercial AM radio stations in 2017 and 67.7% of stations in 2015.
- Males held attributable interests due to their positional interests in 95.9% of stations in 2017 and 84.8% of stations in 2015.
- Hispanic/Latino persons held attributable interests due to their positional interests in 13.7% of stations in 2017 and 14.2% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests due to their positional interest in 94.7% of stations in 2017 and 96.2% of stations in 2015.
- Racial minorities' attributable interests due to their positional interests:
 - Asians held attributable interests due to their positional interests in 15.7% of stations in 2017 and 26.2% of stations in 2015.
 - Black or African Americans held attributable interests due to their positional interests in 6.2% of stations in 2017 and 9.7% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests due to their positional interests in 0.2% of stations in 2017 and 0.7% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests due to their positional interests in 0.5% of stations in 2017 and 0.2% of stations in 2015.
 - Individuals of two or more races held attributable interests due to their positional interests in 0.2% of stations in 2017 and 0.6% of stations in 2015.
- Whites held attributable interests due to their positional interests in 94.7% of stations in 2017 and 96.7% of stations in 2015.

b. Single Majority Voting Interest

- Females were single majority voting interest holders in 15.0% of commercial AM radio stations in 2017 and 13.4% of stations in 2015.
- Males were single majority voting interest holders in 87.2% of stations in 2017 and 86.6% of stations in 2015.
- Hispanic/Latino persons were single majority voting interest holders in 7.6% of stations in 2017 and 7.4% of stations in 2015.
- Non-Hispanic/Latino persons were single majority voting interest holders in 92.4% of stations in 2017 and 92.6% of stations in 2015.
- Racial minorities were single majority voting interest holders in stations:
 - Asians were single majority voting interest holders in 4.0% of stations in 2017 and 5.3% of stations in 2015.

- Black or African Americans were single majority voting interest holders in 4.0% of stations in 2017 and 3.7% of stations in 2015.
- Native Hawaiian or Pacific Islanders were single majority voting interest holders in 0.1% of stations in 2017 and 0.3% of stations in 2015.
- American Indian or Alaska Natives were single majority voting interest holders in 0.1% of stations in 2017 and 0.2% of stations in 2015.
- Individuals of two or more races were single majority voting interest holders in 0.0% of stations in 2017 and 0.1% of stations in 2015.
- Whites were single majority voting interest holders in 91.9% of stations in 2017 and 90.5% of stations in 2015.

E. Commercial FM Radio

1. Commercial FM Radio Majority Ownership Interest - Table E(1a)-E(1c)

a. Gender

- Females held a discernable majority voting interest in 390 (7.2%) of 5,399 commercial FM radio stations in 2017 and 446 (8.1%) of 5,492 FM radio stations in 2015.
- Males held a discernable majority voting interest in 4,459 stations (82.6%) in 2017 and 4,044 stations (73.6%) in 2015.
- Males and females jointly held a discernable majority voting interest 57 stations (1.1%) in 2017 and 55 stations (1.0%) in 2015.
- Stations with no majority interest by gender accounted for 493 stations (9.1%) in 2017 and 947 stations (17.2%) in 2015.

b. Ethnicity

- Hispanic/Latino persons held a discernable majority voting interest in 219 commercial FM stations (4.1%) in 2017 and 228 stations (4.2%) in 2015.
- Of these 219 stations, 122 stations were in a top-100 Arbitron metro market, 48 stations were in Arbitron metro markets 101-274, and 49 stations were outside all Arbitron metro markets.
- Non-Hispanic/Latino persons held a discernable majority voting interest in 4,995 stations (92.5%) in 2017 and 4,313 stations (78.5%) in 2015.
- Stations with no majority interest by ethnicity accounted for 185 stations (3.4%) in 2017 and 951 stations (17.3%) in 2015.

c. Race

- Racial minorities held a discernable majority voting interest in 159 commercial FM radio stations (2.9%) in 2017 and 128 stations (2.3%) in 2015.
- Of these 159 stations, 63 stations were in a top 100 Arbitron metro market, 34 stations were in Arbitron metro markets 101-274, and 62 stations were outside of all Arbitron metro markets.
- American Indian or Alaska Natives held a discernable majority voting interest in 19 stations (0.4%) in 2017 and 21 station (0.4%) in 2015.
- Asians held a discernable majority voting interest in 19 stations (0.4%) in 2017 and 20 stations (0.4%) in 2015.

- Black or African Americans held a discernable majority voting interest in 114 stations (2.1%) in 2017 and 72 stations (1.3%) in 2015.
- Native Hawaiian or Pacific Islanders held a discernable majority voting interest in 6 stations (0.1%) in 2017 and 14 stations (0.3%) in 2015.
- Persons of two or more races held a discernable majority voting interest in 1 station (0.0%) in 2017 and 1 station (0.0%) in 2015.
- Whites held a discernable majority voting interest in 5,058 stations (93.7%) in 2017 and 4,444 stations (80.9%) in 2015.
- Stations with no majority interest by race accounted for 182 stations (3.4%) in 2017 and 920 stations (16.8%) in 2015.

2. Commercial FM Radio Attributable Ownership Interest - Table E(2a)-E(2c)

- Females held attributable interests in 70.0% of commercial FM radio stations in 2017 and 63.0% of stations in 2015.
- Males held attributable interests in 96.5% of stations in 2017 and 95.1% of stations in 2015.
- Hispanic/Latino persons held attributable interests in 13.8% of stations in 2017 and 9.9% of stations in 2015.
- Non-Hispanic/Latino persons held attributable interests in 97.5% of stations in 2017 and 96.2% of stations in 2015.
- Racial minorities' attributable interests in stations:
 - Asians held attributable interests in 20.0% of stations in 2017 and 15.2% of stations in 2015.
 - Black or African Americans held attributable interests in 6.4% of stations in 2017 and 6.1% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests in 0.4% of stations in 2017 and 0.7% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests in 1.1% of stations in 2017 and 0.7% of stations in 2015.
 - Individuals of two or more races held attributable interests in 0.1% of stations in 2017 and 1.0% of stations in 2015.
- Whites had attributable interests in 98.4% of stations in 2017 and 98.0% of stations in 2015.

3. Commercial FM Radio Attributable Ownership Type - Table E(3a)-E(3c)

a. Positional Interest

- Females held attributable interests due to their positional interest in 70.0% of commercial FM radio stations in 2017 and 71.2% of stations in 2015.
- Males held attributable interests due to their positional interests in 96.5% of stations in 2017 and 86.9% of stations in 2015.
- Hispanics/Latinos held attributable interests due to their positional interests in 13.8% of stations in 2017 and 14.2% of stations in 2015.
- Non-Hispanics/Latinos held attributable interests due to their positional interests in 97.5% of stations in 2017 and 97.8% of stations in 2015.

- Racial minorities' attributable interests due to their positional interests:
 - Asians held attributable interests due to their positional interests in 20.0% of stations in 2017 and 27.8% of stations in 2015.
 - Black or African Americans held attributable interests due to their positional interests in 6.4% of stations in 2017 and 9.2% of stations in 2015.
 - Native Hawaiian or Pacific Islanders held attributable interests due to their positional interests in 0.4% of stations in 2017 and 0.6% of stations in 2015.
 - American Indian or Alaska Natives held attributable interests due to their positional interests in 1.1% of stations in 2017 and 0.4% of stations in 2015.
 - Individuals of two or more races held attributable interests due to their positional interests in 0.1% of stations in 2017 and 1.8% of stations in 2015.
- Whites held attributable interests due to their positional interests in 98.4% of stations in 2017 and 98.3% of stations in 2015.

b. Single Majority Voting Interest

- Females were single majority voting interest holders in 12.7% of commercial FM radio stations in 2017 and 14.1% of stations in 2015.
- Males were single majority voting interest holders in 88.7% of stations in 2017 and 85.9% of stations in 2015.
- Hispanic/Latino persons were single majority voting interest holders in 6.2% of stations in 2017 and 7.6% of stations in 2015.
- Non-Hispanic/Latino persons were single majority voting interest holders in 93.8% of stations in 2017 and 92.5% of stations in 2015.
- Racial minorities were single majority voting interest holders in stations:
 - Asians were single majority voting interest holders in 0.4% of stations in 2017 and 0.8% of stations in 2015.
 - Black or African Americans were single majority voting interest holders in 3.3% of stations in 2017 and 2.5% of stations in 2015.
 - Native Hawaiian or Pacific Islanders were single majority voting interest holders in 0.1% of stations in 2017 and 0.4% of stations in 2015.
 - American Indian or Alaska Natives were single majority voting interest holders in 0.3% of stations in 2017 and 0.5% of stations in 2015.
 - Individuals of two or more races were single majority voting interest holders in 0.0% of stations in 2017 and 0.0% of stations in 2015.
- Whites were single majority voting interest holders in 95.8% of stations in 2017 and 95.9% of stations in 2015.

APPENDIX A

Glossary of Terms

Attributable ownership interest: An interest that is attributable pursuant to Note 2 of Section 73.3555 of the Commission's rules (47 CFR § 73.3555, Note 2).

Combination: This category covers situations in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of the same ethnicity or race both separately exceed 50% (e.g., a station where a wife and husband, both Hispanic/Latino, each hold 100% as joint tenants(s)).

Controlling interest: A single individual holds a majority voting interest (i.e., more than 50%) in the licensee or its controlling parent or parents.

Ethnicity Definition (Hispanic or Latino): A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish Culture or origin, regardless of race.¹

Insufficient data to identify: The computer code was unable to process the data submitted to the Commission in these stations' biennial filings.

Joint Female/Male: A situation in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) both separately exceed 50% (e.g., a station where a wife and husband each own 100% of the station as joint tenants).

Majority interest: A group of individuals of the same gender, ethnicity, or race, collectively hold an attributable voting interest in the licensee that exceeds 50%.

No majority interest: No individual or group of individuals of the same race, ethnicity, or gender holds, either individually or collectively, an attributable voting interest in the licensee that exceeds 50%. The computer code may have included some stations in this category if the stations' biennial filings contained data errors or inaccuracies that caused the computer code to be unable to properly process the data submitted to the Commission.

Not filed: This category includes situations where (a) the station's licensee did not file a biennial 323 or 323-E form, or (b) the Commission's LMS was unable to accept the licensee's filing as a result of the licensee failing to file a fee, or (c) the licensee's filing could not be processed by the computer code.

¹ Office of Management and Budget, Revisions to the Standards for the Classification of Federal Data on Race and Ethnicity, Notice of Decision, 62 Fed. Reg. 58782, 58789 (Oct. 30, 1997) (OMB Standards Notice).

Positional Interest: Positional interest data reported herein include all the categories listed on Form 323 and Form 323-E. These categories are as follows: Officer, Director, General Partner, Limited Partner, LC/LLC/PLLC Member, Owner, Stockholder, Attributable Creditor, Attributable Investor, Other (please specify).

Race Definitions:

- *American Indian or Alaska Native:* A person having origins in any of the original peoples of North America and South America including Central America, and who maintains tribal affiliation or community attachment.
- *Asian:* A person having origins in any of the original peoples of the Far East, Southeast Asia, or Indian Subcontinent including Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- *Black or African American:* A person having origins in any of the black racial groups of Africa.
- *Native Hawaiian or Other Pacific Islander:* A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- *Two or more races:* A person having origins in two or more races.
- *White:* A person having origins in any of the original peoples of Europe, the Middle East, or North Africa.²

APPENDIX B

Explanatory Notes

LMS Data

The 2017 biennial ownership data analyzed in the report were pulled from LMS on November 1, 2019.

Description of the Tables

Tables 1(a)(b)(c) identifies the number of stations for which an individual or a group of individuals of the same race, ethnicity, or gender hold, either individually or collectively, a majority of the voting interests in the licensee, that is, their voting interests exceed 50%. When a station is identified as having no majority interest, that does not necessarily mean that no particular classification of persons has a majority interest in the station, only that this cannot be determined from the reported Form 323 data as submitted. Each station is uniquely identified in this table.

Please note:

In Table 1(a), “Joint female/male” is defined as a situation in which there is at least one female and one male attributable station owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) both separately exceed 50% (e.g., a station where a wife and husband each own 100% of the station as joint tenants).

In Table 1(b), “Combination” includes situations in which there is at least one female and one male attributable owner and the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of the same ethnicity both separately exceed 50% (e.g., a station where wife and husband, both Hispanic/Latino, each own 100% as joint tenants). It also includes situations in which the aggregate votes of neither gender exceed 50%, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of either the same ethnicity or race together exceed 50% (e.g., a station where Hispanic/Latino females hold 40% of the vote and Hispanic/Latino males hold 40% of the vote).

In Table 1(c), “Combination” includes situations in which there is at least one female and one male attributable owner and aggregate votes of female attributable owner(s) and aggregate votes of male attributable owner(s) of the same race both separately exceed 50%. It also includes situations in which the aggregate votes of neither gender exceed 50%, but the aggregate votes of the female attributable owner(s) and the aggregate votes of the male attributable owner(s) of either the same ethnicity or race together exceed 50% (e.g., a station where Asian females hold 40% of the vote and Asian males hold 40% of the vote).

Tables 2(a)(b)(c) identifies the number of stations that have at least one person, by race, ethnicity, or gender, with an attributable interest. Each station may appear in one or more categories in this table.

Tables 3(a)(b)(c) identifies the number of stations that have at least one person, by race, ethnicity, or gender, with an attributable interest by virtue of a positional interest; or at least one person, by race, ethnicity, or gender, with a voting interest of at least a 5%, 10%, or 25%. Each station may appear in one or more of these categories. Table 3 also identifies the number of stations that have a single majority interest holder (one person holds more than 50% of the voting interests).

Manual Adjustments to Data

A. Commercial full power television tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined a number of filings, based on the data contained in the Form 323 submissions, together

with other available information (such as communications with licensees or their counsel, as well as analysis of additional reports and applications filed by stations), and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 1 station in Table 1 was reassigned to female, non-Hispanic/Latino female, Asian female; 1 station was reassigned to female, non-Hispanic/Latino female, White combination; 2 stations were reassigned to female, non-Hispanic/Latino female, White female; 1 station was reassigned to joint female/male, Hispanic/Latino combination, White combination; 2 stations were reassigned to joint female/male, non-Hispanic/Latino combination, White combination; 3 stations were reassigned to male, Hispanic/Latino male, White male; 1 station was reassigned to male, non-Hispanic/Latino male, Asian male; 21 stations were reassigned to male, non-Hispanic/Latino male, White male; 10 stations were reassigned to NMI gender, non-Hispanic/Latino combination, NMI race; 2 stations were reassigned to NMI gender, non-Hispanic/Latino combination, White combination; and 183 stations were reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

B. Commercial Class A television tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined a number of filings, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 3 stations in Table 1 were reassigned to male, non-Hispanic/Latino male, White male; 1 station was reassigned to NMI gender, non-Hispanic/Latino combination, NMI race; 1 station was reassigned to NMI gender, non-Hispanic/Latino combination, White combination; and 38 stations were reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

C. Commercial low power television tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined a number of filings, many of which fell into these categories, based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In some cases, this involved moving certain stations that were missing one or more reports into the proper ownership categories based on staff analysis of the ownership of commonly-owned stations. In all, 1 station in Table 1 was reassigned to female, non-Hispanic/Latino female, Black or African American female; 1 station was reassigned to joint female/male, non-Hispanic/Latino combination, White combination, 1 station was reassigned to male, non-Hispanic/Latino male, Asian male; 30 stations were reassigned to male, non-Hispanic/Latino male, White male; 6 stations were reassigned to NMI gender, non-Hispanic/Latino combination, NMI race; and 26 stations were reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

D. Commercial AM radio station tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined many of the filings for stations that fell into these categories based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 9 stations in Table 1 were reassigned to female, non-Hispanic/Latino female, White female; 7 stations were reassigned to joint female/male, Hispanic/Latino combination, White combination; 40 stations were reassigned to joint

female/male, non-Hispanic/Latino combination, White combination; 1 station was reassigned to male, non-Hispanic/Latino male, Asian male; 1 station was reassigned to male, non-Hispanic/Latino male, NMI Race; 3 stations were reassigned to male, non-Hispanic/Latino male, White male; 3 stations were reassigned to NMI gender, non-Hispanic/Latino combination, White combination; and 14 stations were reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

E. Commercial FM radio station tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined many of the filings for stations that fell into these categories based on the data contained in the Form 323 submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 6 stations in Table 1 were reassigned to female, non-Hispanic/Latino female, White female; 1 station was reassigned to joint female/male; non-Hispanic/Latino combination, Black or African American combination; 2 stations were reassigned to joint female/male, non-Hispanic/Latino combination, Native Hawaiian or Pacific Islander combination; 54 stations were reassigned to joint female/male, non-Hispanic/Latino combination, White combination; 1 station was reassigned to male; Hispanic/Latino male, White male; 13 stations were reassigned to male; non-Hispanic/Latino male, White male; 2 stations were reassigned male; non-Hispanic/Latino male, NMI gender; 6 stations were reassigned to NMI gender, non-Hispanic/Latino combination, White combination; and 48 stations were reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

F. Noncommercial full power television tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined a number of filings, based on the data contained in the Form 323-E submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 1 station in Table 1 was reassigned to female, non-Hispanic/Latino female, White female; 1 station was reassigned to joint female/male, non-Hispanic/Latino combination, White combination; 2 stations were reassigned to male, non-Hispanic/Latino male, White male; 1 station was reassigned to NMI gender, non-Hispanic/Latino combination, Native Hawaiian or Pacific Islander combination; 7 stations were reassigned to NMI gender, non-Hispanic/Latino combination, White combination; and 6 stations were reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

G. Noncommercial Class A television tables

No manual data adjustments were made for stations in this category.

H. Noncommercial low power television tables

No manual data adjustments were made for stations in this category.

I. Noncommercial AM radio station tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined a number of filings, based on the data contained in the Form 323-E submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 9 stations in Table 1 were reassigned to NMI gender, non-Hispanic/Latino combination, White combination and 1 station was reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.

J. Noncommercial FM radio station tables

The computer code was unable to process a number of biennial submissions due to filing errors. In most cases, these filings defaulted to “Insufficient data to identify.” Commission staff manually examined a number of filings, based on the data contained in the Form 323-E submissions, together with other available information, and reassigned the stations to the appropriate category in Table 1 for the purposes of this report. In all, 1 station in Table 1 was reassigned to male, non-Hispanic/Latino combination, White male; 1 station was reassigned male, non-Hispanic/Latino male, White male; 1 station was reassigned to NMI gender, non-Hispanic/Latino combination, Black or African American combination; 1 station was reassigned to NMI gender, non-Hispanic/Latino combination, American Indian or Alaska Native combination; 28 stations were reassigned to NMI gender, non-Hispanic/Latino combination, White combination; and 1 station was reassigned to NMI gender, NMI ethnicity, NMI race. Table 1 reflects these reassignments. Commission staff did not reassign any stations reported in Tables 2 and 3.
